

# CREATING IBM CLOUD SERVICE

Date	8 NOVEMBER 2022
Team ID	PNT2022TMID05376
Project Name	GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES

The screenshot displays the IBM Cloud Dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user's account (Vasu Devan K B's Acco...). Below this, the main section is titled 'Dashboard' and includes links to 'Edit dashboard', 'Upgrade account', and a prominent 'Create resource' button. The 'For you' section features a grid of six cards: 'Build' (purple), 'Build a web app with Watson Speech to Text' (15 min), 'Get Started with Watson Studio' (2 hr), 'Build a Virtual Private Cloud (VPC)' (7 min), 'Learn about IAM Roles' (5 min), and 'Build a virtual machine' (7 min). Each card provides a brief description and a 'Getting started' link. The bottom section contains four panels: 'News' (with links to IBM Cloud Certification, IBM SevOne Network Performance, Gartner Magic Quadrant, and Incident Management), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status' (showing a world map). The Windows taskbar at the bottom indicates a temperature of 29°C, time of 6:26 PM, and date of 11/19/2022.

An IBM Cloud Service created Successfully .
